Education

- **FOUNDATION UNIVERSITY RAWALPINDI CAMPUS**
  Bachelor of Software Engineering (ongoing), CGPA: 3.76
  2023 - Present

- **GOVT GORDON GRADUATE COLLEGE RAWALPINDI**
  Intermediate in computer science.
  2021 – 2022

Skills

Java | HTML | CSS | JavaScript | Tailwind CSS | React | SQL Server | Photoshop

Experience

- **FREELANCE GRAPHIC DESIGN**
  2021 – 2023

  I worked as a freelance thumbnail designer, creating eye-catching, on-brand visuals in Photoshop and collaborating with a variety of clients. I have in-depth knowledge of visual hierarchy, understand how CTR works, and know how to optimize layout, wording, and imagery.

Projects

- **YOUTUBE THUMBNAIL DOWNLOADER**
  - Technologies: React/HTML/Tailwind CSS/Vite
  - Built a YouTube thumbnail downloader. Users can insert video link and download its YouTube thumbnail.
    Live Demo: https://ytd-pakistan.vercel.app/

- **HEALTH AND FITNESS WEBSITE**
  - Technologies: React/HTML/Tailwind CSS/Vite
  - This is a front-end health and fitness project where I built a BMI calculator, implemented light/dark mode, and created a random quote generator that fetches quotes from a JSON file.
    Live Demo: https://la-passion.vercel.app/

- **FOOD DELIVERY WEBSITE**
  - Technologies: HTML/CSS
  - Built a simple food delivery website as a 3rd-semester project using HTML and CSS to create responsive pages for browsing menus and exploring products.
    Live Demo: http://hassamk122.github.io/Non-Stop/Webpage.html

About Me

I'm on the path to becoming a full-stack developer, Insha Allah. I'm passionate about learning new technologies and pushing the boundaries of both code and design.
